Item 5.02(e)

On March 22, 2017, the Compensation Committee of the Board of Managers of Hexion Holdings LLC, the indirect parent company of Hexion Inc. (the "Company"), approved the 2017 annual incentive compensation plan for employees of the Company, including the Company's named executive officers and other specified members of management (the "2017 IC Plan").

Under the 2017 IC Plan, named executive officers have the opportunity to earn cash bonus compensation based upon the achievement of certain division, business unit and/or corporate performance targets established with respect to the plan. The performance targets are established based on the following performance criteria: EBITDA (earnings before interest, taxes, depreciation and amortization) adjusted to exclude certain non-cash, certain non-recurring expenses and discontinued operations ("Segment EBITDA"); environment, health & safety ("EH&S") targets which measure corrective actions completed on time, severe incident factor OSHA recordable injuries, occupational illness and injury rates, and total environmental incidents; and cash flow.

The performance criteria for participants are weighted by component. Participants have 55% of their incentive compensation tied to achieving corporate, division, and/or business unit Segment EBITDA targets, 10% tied to the achievement of corporate, division or business unit EH&S goals, and 35% tied to the achievement of corporate or business unit cash flow targets. Minimum, target, upper middle and maximum thresholds were established for the Segment EBITDA performance criteria. Minimum, target and maximum thresholds were established for the cash flow performance criteria, and target and maximum thresholds were established for the EH&S goals.

The payouts for achieving the minimum thresholds are a percentage of the allocated target award for the component (50% for Segment EBITDA and cash flow). The payouts for achieving the maximum thresholds are 175% or 200% of the allocated target award, depending on the participant's position. Payouts for achieving the applicable EH&S measures range from 100% to 200% of the allocated EH&S target award. Each performance measure under the 2017 IC Plan acts independently such that a payout of one element is possible even if the minimum target threshold for another is not achieved.

The foregoing description is qualified by reference to the 2017 IC Plan, which will be filed with the Company's Quarterly Report on Form 10-Q for the period ended March 31, 2017.
